## Professional Experience

Temitope brings **29 years of experience** in the oil and gas industry, having worked with major multinational companies including:

- Phoebe Toot Consulting
- Chevron
- Schlumberger (WesternGeco)
- Baker Hughes
- Western Geophysical

She began her career in 1995 as a Junior Geophysicist with Western Geophysical during her National Youth Service Program, processing seismic data in the Niger Delta. Shortly after, she was hired full-time and contributed to significant improvements in seismic processing efficiency.

Over the years, she progressed to senior technical roles, leading complex seismic processing projects that resulted in:

- 15% reduction in processing time
- 30% increase in operational efficiency
- 25% improvement in seismic interpretation quality
- 30% increase in client satisfaction

At Chevron, Temitope expanded her expertise from geophysics to earth sciences and later to human resources, driving improvements in reservoir analysis, project supervision, and talent management.
